ANTIETAM AND GETTYSBURG.

The New York *World*, commenting upon the dedication of the Cemetery at Antietam, clearly shows that both that destructive battle and the still more bloody one at Gettysburg, were the result of the hatred of Stanton to McClellan, and the selection of utterly incompetent men to fill the position from which he was removed on account of political reasons and mean jealousy. The *World says:*

It was in consequence of setting up General Pope as a rival to General McClellan in Virginia, that those great disasters befell our troops under the command of Pope, which enabled the victorious rebels to cross the Potomac in full force, and compelled the frightened authorities to reinstate General McClellan in command to save the national capital. It was by the great victory of Antietam that he broke the strength of General Lee, and compelled him to slink away in the night and recross the Potomac. As soon as the Washington authorities were thus relieved from their terror, political jealousy of Gen. McClellan revived in all its venom. With the laurels of a recent victory thick upon his brow, this able commander, the idol and admiration of his soldiers, was driven from the army never to return. A succession of terrible reverses, the direct consequence of his removal, enabled the rebels to recover more than they had lost in their first invasion, to send consternation through the whole North by its repetition, and to give occasion for the hardly-contested field of Gettysburg, on which more depended than on any other battle of the war. Had General McClellan been properly supported, there would have been no second Bull Run, and consequently no Antietam. Had General McClellan been continued in command after his victory at Antietam, there would have been no Fredericksburg, no Chancellorsville, and consequently no Gettysburg. Antietam and Gettysburg were fought to repair hideous disasters, to recover lost ground, to repel invasions which became possible only by the profligate and unhallowed mismanagement of the authorities at Washington. Monuments on those great historic spots are commendable and becoming as tributes by a grateful country to the memory of the brave citizens who there fell in its defence, but what is the relation of those monuments to the scores of thousands of equally brave citizens whose blood cries from the ground against official imbecility and blundering, in the vast slaughter-pens on the soil of Virginia? If their lives, sacrificed in vain, had been spared, there would have been no occasion for those great cemeteries on Northern soil.

"And the angel said unto me, Write. And I said, What shall I write?"

When History asks Arithmetic to be her amanuensis, she will dedicate this sum in addition: Set down the numbers who fell in the disastrous Virginia battles under Pope; beneath this place the number who were uselessly sacrificed in Burnside's slaughter-pen at Fredericksburg; then the enormous losses under Hooker at Chancellorsville; then the heroic multitudes who fell in the two rebel invasions; add up the fearful sum, and the amount will be the hideous cost in human life of Stanton's injustice to General McClellan.

ANOTHER ATLANTIC CABLE.—The proposed cable from France to the United States is said to be in a fair way to be successfully laid. The preliminary soundings, began four months ago, are announced by the Paris newspapers to be completed, and they state that the cable will be laid from Brest to St. Pierre Miquelon, in Nova Scotia, it having been ascertained that the bottom of the ocean along that line is favorable.—From St. Pierre it will go along the coast of New Brunswick, and the shores of Maine, New Hampshire, Massachusetts and Connecticut.—The immersion of the cable, now making in London, is to begin next May, and the Great Eastern is to be employed to lay it. It is hoped that a month will suffice for the work, and that in July, 1868, telegraphic communication will be opened.

SPLATTERINGS.—"Breathes there a man with soul so dead, who never to himself hath said, I will my local paper take, both for my own and family's sake? If such there be, let him repent, and have the paper to him sent, and if he'd pass a happy winter, he in advance should pay the printer."

We refer the above to the public.

A YEAR OF RELIGIOUS JUBILEE.—It is pretty generally known that the present year of 1867, is the seventh semi-centennial anniversary of the Great-Reformation. It is just 250 years since Martin Luther and his colaborers inaugurated a revolutian that, under God, has given us all we hold dear in civil and religious liberty—the pure Gospel and freedom to worship God.—It is proper that the trials and sacrifices of the Reformer should be remembered, and their great work properly respected. The year 1867, especially from the 31st of October, is therefore recognized as a year of jubilee by the entire Lutheran Church of America.

The Remains and Burial of J. Wilkes Booth.

Onr Washington correspondent gives an account of the exhuming of the bodies of J. Wilkes Booth and others. The *Star* furnishes some particulars of the first burial of Booth's body, which have been hitherto unpublished.—It seems from this account that the body having been examined and two of the vertebrae having been taken from it by surgeons, was sent ashore from the monitor which brought it up to the navy yard, wrapped in a gray army blanket.—The body was taken off in a boat, in which was an officer of the monitor with four sailors, Gen. Baker and two detectives. The boat proceeded down stream, and finally stopped at the lower Arsenal wharf, on which the body was placed; after which the boat returned to the monitor, leaving Gen. Baker and his assistants in the Arsenal grounds.

A report was put out that it was the body of a soldier who had been drowned, and but little attention was paid to it. The body remained on the wharf until after nightfall, when preparations were made for the interment. Secretary Stanton, Gen. Dyer, chief of ordnance, and Col. Benton, commandant of the post, were on the ground, as well as General Baker and his detectives. Three men of the laborers' gang were sent for, and they were first directed to dig a grave in one of the penitentiary cells, but after taking up the brick flooring they came to the granite foundation laid in cement, and they pronounced the work impracticable. A spot was then selected in the wareroom, five or six feet south of the iron door opening into the prison from the warden's department, and they were directed to dig the grave to the depth of about ten feet.

The grave being ready, the body, enclosed in an ammunition box, (arms case,) was brought in by four of the ordinance men in charge of a sergeant, lowered into the grave, and it was filled, the brick flooring being mostly replaced, and the surplus earth removed to another portion of the room. The burial having been accomplished, the windows were boarded up and the door made secure—Secretary Stanton taking the key with him. This key was kept at the War Department until a few weeks ago, when it was returned to the arsenal officers.

THE NICKEL MINES.—Now that our specie circulation is based so largely upon nickel, it may be interesting to the reader to know something of the locality and character of the mines whence this material is taken. The few facts about to be quoted with reference to them are taken from a newspaper published in the vicinity of the mines, the largest of which are situated in this State. "Fourteen miles from Lancaster," says the journal in question, "are the Gap mines and smelting works. These mines were discovered many years ago, and about the time of the revolutionary war were worked for copper, but were soon abandoned, the crude of machinery of that period being ill-adapted to working them properly. Two generations had passed away, and the circumstance had been forgotten, when about fifteen years ago the mines were reopened by a company of capitalists from Philadelphia, since which time they have been steadily worked.—They were reopened with the view of obtaining copper, but the ore was soon discovered to be richer in nickel, a more valuable mineral, and since then they have been worked for that metal exclusively. In all about one hundred and fifty men are employed at the mines and smelting works."

The nickel produced by these mines is nearly all used by the government in the coinage of its small pieces, in all of which, from one penny up to the five cent piece, a large admixtnre of this metal is used.

BURNS.—In regard to the treatment of burns there is a great diversity of opinion, scarcely any two surgeons agreeing as to the remedies. All of them are doubtless valuable, but there is one which has a great reputation, carron oil, limewater, and linseed oil. The great objection to it is its offensive odor, rendering an entire ward disagreeable. When the burn is very superficial, simply inflaming or vesicating the part, covering it up with flour, and then placing a layer of cotton over it so as to exclude the air, makes a very comfortable dressing. Another method consists in applying cold water, and another warm water covered with oiled silk and a bandage. Lard, deprived of salt, and simple cerate make pleasant applications. The profession is indebted to Prof. Gross for the introduction of white lead and linseed oil in the treatment of burns. It is one of the very best applications which can be used, effectually excluding the air, and being always grateful to the patient. In all cases, no matter whether merely the skin or the deeper structures are involved, white lead rubbed up with linseed oil to the consistence of paste or paint, and placed on with a brush, will be found productive of great relief. There does not appear to be any risk from the constitutional influence of the lead, though it has been suggested, to counteract any tendency of this kind, that the patient should take occasionally a little sulphate of magnesia.—*Medical and Surgical Reporter.*

—The Howard Association at New Orleans is now rendering assistance to eight hundred stricken families.

Remains of an Extinct Race.

It may not be generally known that the ground on which the city of Nashville now stands was once the site of an ancient and populous town, yet such is supposed to be the fact. Some of the most interesting antiquities of our State are found along the lower course of Stone river, but a few miles from Nashville. A wide area of country there is covered thickly with thousands of graves of a now forgotten people. But a few days ago several gentlemen made some researches in this region, and found their labors richly rewarded by some striking discoveries. At a place known as Schell's Spring they found a mound of considerable height and perhaps 40 feet in diameter, which proved upon examination to be nothing less than a vast mausoleum of the dead.—The graves were found to be made of flat rocks, symmetrically joined together, and three tiers deep from the base of the mound to its apex. Bones were found in a remarkable state of preservation, together with pottery and shells. Very large ornaments have been dug out in this locality, made from shells found only in the Gulf of Mexico. A gentleman of acknowledged skill and authority in autiquarian matters, who conducted the researches made a few days ago, estimated that the remains which they unearthed could not have less age than 600 or 700 years. What is remarkable, no warlike implements are found in this locality, from which it is inferred that they were a peaceable race, and were probably exterminated or driven away by the Indians. In one of the graves was found a beautiful little vase, which had been placed in the hand of the inmate of the tomb at the time of the burial. Upon this little bit of earthenware was the model of a diminutive animal. The care which these people took of their dead shows a high degree of humanity. We learn that other investigations in this section are to be made ere long. The field is certainly a rich one for the antiquary.—*Nashville Press and Times.*

POPULAR ERRORS.—Among other popular errors are the following: That editors keep public reading rooms.—That they have plenty of time to talk to every body. That they are delighted to get anything to fill up the paper with. That they are always pleased to have assistance in selecting copy for the paper. That every man's own private axe is a "matter of public interest." That it doesn't make much difference whether copy be written on both sides. That editors return rejected manuscripts. That taking the paper places the editor under obligations to agree with you on all subjects. That a bunch of turnips, a big peach, or some other trifling present, worth, perhaps, ten or fifteeen cents, entitles you to an editorial notice worth five dollars.

NO CAUSE FOR GRUMBLING.—There are certain chronic grumblers who delight in predicting hard times, particularly at this season of the year, when winter is just at hand. It is not good policy, of course, to color the picture of the times too highly, but it is certainly safe to say that there is no ground for special complaint. It appears from the figures in the crop estimates made by the Agricultural Bureau at Washington that the wheat crop of the United States will this year be nearly fifty per cent. larger than it was last year. Upon the supply of wheat depends the price of flour, and hence no trouble in the bread market need be apprehended. Some of the minor crops are not up to the average yield, but there is no reason to grumble about any of them. With the unusually large wheat crop, the price of coal considerably reduced, dry goods from fifty to one hundred per cent. lower than they were two years ago, general prices constantly tending downward, together with a fair business season and financial soundness—with all these encouraging circumstances there is no cause for complaint about hard times—except for drones.

DANGEROUS COUNTERFEITS.—The new imitation of $10 bills on the Third National Bank of Philadelphia, Penn., is a very dangerous affair. The execution of the engraving is good, and the general appearance of the note is likely to deceive. Keep a sharp lookout for them. *Lord's Detector* says the counterfeiters are at work improving their spurious issues of National bank notes. We have just seen a new $5 note, which presents a much better appearance than any of the counterfeits of this denomination which have heretofore come under our observation. Too much care cannot be exercised in handling this kind of money.

GOLD.—We saw at the Bank of Chambersburg, on Friday last, three "bricks" of gold that had been sent in from Montana, by Col. M'Clure, to Wm M'Lellan, Esq. Two of these were of the value of $2,000 each, and the other was worth $1,250.—*Valley Spirit.*

COMING RUIN.—Some European Astronomers pretend to have discovered the fact that the Earth is gradually approaching the Sun, and that it is only a matter of time when our planet will be distroyed by the heat. The fact that the climate has greatly changed all over the world is accounted for in this way, and those who are easily scared are looking for the grand catastrophe. It is a consolation that when it does occur we will be likely to know it.

The Fall Fashions.

Already the female world is agitated on the all important question of dress, and the haroscope, or rather kaleidescope of the chameleon goadess, Fashion, is anxiously consulted by her fair votaries. The revolution which commenced last spring in fashions is still progressing, and the days of huge bonnets and balloon dresses seem to be numbered forever. The *modistes*, however, are meditating a *coup d' etat*, although they maintain an ominous silence in regard to their plans. They are determined, if bonnets be small, that the size shall not affect the price; for the trimmings and material of those fragile articles this winter shall be the richest and most elaborate kind. The bonnet will not be any larger than before, but will make up in breadth what it lacks in height and length. The high priestesses of fashion announce also the most extravagant kinds of trimming on cloaks, and where dresses are deficient in breadth they will attach an extra train. The becoming short dresses for the streets have taken fast hold on the minds of the ladies, and silk and satin will no longer be used for street cleaning purposes. In all these vagaries of fashion there is one encouraging feature: the American ladies are gradually freeing themselves from the bonds of allegiance to Paris, and are awakening to the knowledge that they are fully as competent to select styles and materials for dresses themselves as the representatives of fashion in that gay city. It is not very creditable to be obliged to copy from the disreputable portion of the female world in Paris for fashions, and the sooner our ladies assert their independence in this respect the better. However, let not credulous husband imagine that the allowance of pin money may be decreasod by the comparative smallness of the materials in dresses which is now popular among the ladies. The trimmings will more than compensate for the difference in size; so that the schedule of prices will rem in unchanged, or will, perhaps, be increased.—*N. Y. Herald.*

CHILDREN'S DRESSES.—Not "Solomon in all his glory was arrayed like unto" these little ones—might be the cunning application of the old biblical verse, as one gazes on the fancy and theatrical manner in which the children of these crazy times are dressed and decked. All colors, all styles, all cloths, are mingled on the backs of the little creatures who are so unfortunate as to have fashionable parents; and although one cannot resist admiring the taste and effect of some of the juvenile adornments, the wise man (and woman) dreads the result of it all on the young mind in later years. Cleanliness and neatness and simplicity, to our mind, cloathe a child better than all the velvets and colors of creation. Nevertheless, all the world don't think so, and it's well it don't. What a monotony of goodness there would be if every parent was wise and prudent.

THE Richmond correspondent of the New York *Herald* says it has now become definitely settled that the trial of Mr. Davis will take place at the November term of the United States Circuit Court in that city. Judge Chase has expressed his intention of presiding, and if the ex-President does not fail to come to time, questions of great importance will arise which will require all the diplomacy and ability of the Chief Justice to evade and decide. The opinion is expressed that, allowing Davis will appear, the trial will be shirked by the Government and the prisoner will be again set at liberty on bail.

There is reason, however, to correct such an erroneous impression. Indications lead to the belief that the trial will be proceeded with, and a mass of the most important events disclosed. The counsel for defence will demand a trial, and if the Government urge as an excuse not ready, the Court will express its intention to remain in session a sufficient time to enable them to prepare; failing in this a *nolle prosequi* will then be entered by which the discharge of the prisoner may be effected. The later is not likely, and the trial, which the nation at large demands, will be proceeded with.

THE WIDOW OF MAXIMILIAN.—According to the Belgian journals the Empress Charlotte of Mexico has had an interview with the duke d'Aumale and the Prince de Joinville. The Queen of the Belgians took them to her at Tervuren and presented them without any previous warning. "Here, Charlotte!" said her magesty, "are our uncles from England come to see you." "Ah, my uncle Henry!" cried the empress running up to the Duke d'Aumale, and she embraced him. "And Joinville," she added, embracing him also. Then she began talking about America, but frequently looked around as if in terror, and at moments she startled under apparently the apprehension that some one was about to stab her from behind. She spoke of the Fenian movement in the United States, of Paraguay and Brazil, but said not a word about Mexico. She evidently wanted to bring the two Princes to speak of that country, but did not succeed. At last she left them with a certain degree of coldness; she was evidently vexed that they did not speak of what she had most at heart.

—A man being commiserated on account of his wife running away, said: "Don't pity me till she comes back."

HEAVY HARVES.T—The yield of this year of 1867, in our country is one of the most bountiful ever gathered. A close and acute observer of agricultural matters reports, with regard to this harvest, that Illinois is much the largest producer of Indian corn, more than one-sixth of the whole crop of the country being grown there, and also the largest producer of oats (more than 20 per cent. of the whole) and of hay more than 20 per cent. Pennsylvania takes the lead in the production of rye—nearly one-third of the whole country, and in buckwheat over 42 per cent. New Jersey produces more rye than any other State, according to population. New York takes the lead in the production of barley; about 40 per cent. of the whole country Virginia. takes the lead in tobacco; about 30 per cent. New York, Pennsylvania and New Jersey together produces two-thirds of all the rye.

HONEY.—Honey, it is well known, when taken from the comb is as clear yellow sirup containing no trace of solid sugar. Upon straining, however, it assumes a crystaline appearance, and finally becomes a solid lump of sugar. It has been found that this change is due to photograph action, chrystalizing only when exposed to light. This explanation furnishes us the reason why bees are so careful to work in perfect darkness, always carefully obscuring the glass windows which may be placed in your hives. The young bees can feed on the liquid honey only, and if light were allowed access to it, the sirup would gradually acquire a more or less solid consistency, sealing up the cells and in all probability proving fatal to the inmates of the hives.

HOW A HOG SWEATS—Not like a horse or a man, but through the fore leg. There is a spot on each leg, just below the knee, in form of a sieve.—Through this the sweat passes off. And it necessary that this be kept open. If If it gets closed, as *is* sometimes the case, the hog will get sick; he will appear stiff and cramped, and unless he gets relief, it will go hard with him. To cure him, simply open the pores. This is done by rubbing the spot with a corn cob, and washing it with warm water. —*Rural World.*

TO FIX PENCIL WRITING. Pencil writing may be fixed almost indelibly as ink, by passing the moistened tongue over it. Even breathing slowly over the lines, after writing, renders them much less liable to erasure than when not subjected to that process. This fact may be of importance to persons who may wish to carry a memorandum book for a long time. In ordinary use the pages of such a book often become very much defaced by the erasure and diffusion of the pencil marks over the entire surface of the paper. A trial of the experiment will readily satisfy any person of the utility of the idea.

FRIED POTATOES.—Pare and cut the potatoes, let them stand in cold water over night. In the morning shake them in a dry towel till perfectly drained. Then drop them into very hot fat, enough to float them. The fat from sheep suet is the best. Shake and turn them until brown, keeping them very hot. Dip out with a skimmer and then salt, a little. If properly done they will be crisp and delicious.

NOW.—Now is the time to attend to the duty of placing your stoves, stove pipes and chimneys in proper condition for the coming cold weather. A little precaution now may prevent an extensive conflagration and great loss of property. Attend to the matter at once.

MORE COUNTERFEITS.—Counterfeit $20 notes on the Fourth National Bank of Philadelphia, and the First National Bank of Indianapolis, Indiana, are in circulation, and counterfeit $10's on the First and Third National Banks of Philadelphia are said to be numerous. Look out for them.

AN EARLY WINTER.—The weather-wise predict an early and cold winter. The beautiful display of the Aurora Borealis a few weeks ago, is said to be an indication, and besides the beavers and squirrels are said to have commenced work earlier than usual in making provisions for their hibernation.

TO PREVENT FLAT-IRONS FROM STICKING.—Irons are apt to stick to starched articles. To prevent this lay a little fine salt on a flat surface and rub the iron well over it. This will make the iron smooth, and also remove smokiness.

TO REMOVE WAX-STAINS FROM CLOTH.—Lay over the stain two thicknesses of blotting-paper, and apply for a moment the pressure of a moderately hot iron. The stains will be instatnaneously and entirely removed.

A "LOCAL'S" FIRST EFFORT.—A Chicago paper says.

We took a new reporter on trial yesterday. He went out to hunt items, and after being away all day, returned with the following, which he said was the best he could do: Yesterday we saw a sight which froze our muscles with horror. A hackman driving down Clark street at a rapid pace, came near running over a nurse and two children. There would have been one of the most heart rending catastrophes ever recorded, had not the nurse, with wonderful fore-thought, left the children at home before she went out, and providentially stepped into a drug store just before the hack passed. Then, too, the hackman, just before reaching the crossing, thought of something he had forgotten, and turning about drove in the opposite direction. Had it not been for this wonderful concurrence of favoring circumstances a doting father, a loving mother, and affectionate brothers and sisters, would have been plunged into the deepest woe, and most unutterable funeral expenses." The reporter will be retained.

THE RESULT IN THE COUNTY.

The splendid victory achieved by the Democrats of Bedford county, at the late election, will inspire every friend of constitutional liberty within the bounds of the county, with renewed hope for the cause and renewed energy to prosecute the struggle for the redemption of the country from the clutches of the vampyres that have battened upon its blood. Many successive defeats (not in the county, it is true, but in the country at large) had wrought a feeling of despair in the hearts of Democrats, and it is really a matter of wonder that in the face of repeated disaster, they rallied again and again, until finally their banner waved triumphantly above their fallen foe. In 1865, the county gave but 137 Democratic majority. In 1866, we added 107 to this, making the majority 244. In 1867, we again added 95, making the majority 339. During the last three years the contest has been most fierce and determined, the enemy straining their utmost to poll every vote they could muster. But their efforts have culminated, and they will never again be able to rally their forces as in the past. It is for the triumphant Democracy, to improve their victory, by moderation, fairness and justice toward the vanquished, whilst seeking to exert every proper influence to increase the strength of the party. Go to work now, and keep up the work until the Presidential election.

WE will publish the official vote of the State in our next. Philadelphia gives Sharswood 2487 majority; Berks, 5,795; Northampton, 2,952; Luzerne, 2,305; Lehigh, 1,627; Schuylkill, 1,123; Westmoreland, 1,433; Greene, 1,413; Clearfield 1,263; Clarion, 1,193; Columbia, 1,757; Cambria, 952; Monroe, 1,816; York, 2,823.

Williams has 6,425 majority in Allegheny; 3,208 in Bradford; 1,898 in Chester; 1,401 in Dauphin; 1,967 in Erie; 5,324 in Lancaster; 1,547 in Lawrence; 1,124 in Lebanon; 1,215 in Somerset; 1,276 in Susquehannah; 2,655 in Tioga; and 1,059 in Deleware.

JUDGE SHARSWOOD'S real majority is upwards of 1,000, as the Philadelphia Return judges counted several hundred votes polled for Williams, by *regulars* at Fort Delaware. Even the Radical Act of Assembly permitting soldiers to vote outside of the State, does not provide for this. It provides only for the reception of votes cast by *volunteers* called into service by the President of the United States.

THE defeat of Messrs. Schell and Findlay, our candidates for the legislature, is greatly to be regretted. In the midst of the general rejoicing, we must pause to express our sorrow for their fate. Bedford county did all that was expected of her. She gave Mr. Schell 534 majority and Mr. Findlay a gain of 100 over Sharswood. Little Fulton also did well. But Somerset is joined to her idols. She loves her politics better than her own material welfare. Well, if her people can stand that sort of business, we can.

As "Swan's militia" are about to invade Pennsylvania, ought not "loyal people" at once to rush to the defence of the State? Let none wait for the editors of the *Inquirer* to "enlist." One of them has "varicose veins," and the other is singularly afflicted with periodical lameness during war times, Poor fellows! Nature has forbidden that they should enter the lists of martial glory.

"SCHULDER deine gewehr! Abs, peif! Uhly, drumm! Ramsparger, kumm!" Such is, doubtless, the battlery of Bro. Scull, of the Somerset *Herald*, as he marshals the hosts of Somerset to defend the sacred soil of Pennsylvania against the threatened inroad of "Swan's militia." Hurry up your recruits, Ned! Pennsylvania must not be captured by 12,000 militia!

IT is hinted in certain Radical quarters that there is to be a change in the editorship of the *Inquirer*, the elections having repeatedly demonstrated that the more violently a Democratic candidate is opposed by that sheet, the greater is sure to be his majority.

THE laggards were taught a lesson at the late election, which they will not soon forget. They said to their neighbors, "Oh! it's of no use to go to the election! We'll be beaten any how!" They will know better hereafter.

JOHN CESSNA is a "buster." He stumped Franklin county this year—Result, 186 Democratic majority. Last year it gave Geary, 193.

THE Democrats gain a Senator and Representative in the Huntingdon district. Farewell, Gerrymander.

VICTORY!

PENNSYLVANIA REDEEMED!

OHIO REGENERATED!

IOWA ON THE MEND!

"AND THE COLORED TROOPS FOUGHT BRAVELY!"

Official returns from all the counties of this State show the election of HON. GEORGE SHARSWOOD to the office of Supreme Judge for the ensuing fifteen years, by a majority of 794. This makes the Democratic gain in the State since last year about 18,000, and since 1865, 23,500! The Legislature is close, but owing to the infamous apportionment under which the people labor, will be again in the hands of the Radicals. A number of Democratic candidates for the Legislature, were defeated by but a few votes. Another fire along the line, and the Legislature will also be Democratic.

In Ohio, the Democrats have carried both houses of the Legislature, securing the election of a Democratic U. S. Senator in place of Ben. Wade. The Governor is in doubt, the majority being but a few hundred either way. About 1,500 negroes voted for the Radical candidate, and the chances are that there will be a contested election. The Democratic gain in Ohio, since last year, is fully 40,000, and since 1863, 100,000! That will do for this time.

Iowa, also, has made large Democratic gains, probably about 20,000 since last year. Such is the story from every quarter, and it will be better still next year, if the Radicals do not repent of their sins, quit their agitation of the Negro question, and cease talking about impeachment, confiscation, agrarianism, and the rest of their deviltries.

REPRESENTATIVE DISTRICT.

The return judges for this Representative district met in this place, on Tuesday last, and upon examination of the returns, it appeared that the vote for Representatives stood as follows:

	Schell	Findlay.	Weller.	Richards.
Bedford,	2751	2649	2214	2217
Fulton,	1035	1010	698	711
Somerset,	1523	1623	2746	2682
	5309	5282	5658	5610

Richards over Schell, 301, over Findlay, 328. Weller over Schell, 349, over Findlay, 376. Enough Democratic votes remained at home in the district to have overcome these majorities by at least 200. How do you feel, laggards?

THE CONGRESSIONAL DISTRICT REDEEMED!

The vote in this Congressional district stands:

	Dem. Maj.	Rad. Maj.
Adams,	392	
Bedford,	339	
Franklin,	189	
Fulton,	310	
Somerset,		1,215
	1,230	
	1,215	
Dem. maj. in district.	15	

Will Gen. Koontz please make a note of this?

THE majority for Peter M. Barton, for county Commissioner, is 377, just 38 more than that for Sharswood. So much for the *Inquirer's* great "discovery" of the "$16,000" which the county is indebted to the State. If the *Inquirer* keeps on with its "discoveries," its party will have trouble to find candidates after a while.

JOHN I. NOBLE, the Democratic candidate for Poor Director, has 347 majority, 9 more than Sharswood. Thus have the people rebuked the vile calumnies heaped upon the late Treasurer of the Poor House, and manifested their utter contempt for the lying electioneering stories of the Bedford *Inquirer*.

DREADFUL! It appears that the people wanted "a District Attorney who drank toasts to Jeff. Davis during the war and proposed to raise the rebel flag in their midst!" The election of Kerr renders "another war" almost certain!

MR. KERR, the Democratic candidate for District Attorney, has 349 majority, 10 more than Sharswood. What a pity that he drank that "toast to Jeff. Davis!" There is no telling what might have been his majority, if he hadn't done that awful deed.

THE *Inquirer* is great on Mother Goose's Melodies. In its last issue it sang thus of its candidates:

"Little Bo-peep,
He lost his sheep,
And don't know where to find them.
Let them alone,
And they'll come home,
With their little tails behind them!"

And they did.

THE question is, *was* John Brown made drunk on "Copperhead whisky?"

A NUMBER of Democratic meetings were held, which were not reported in our paper, for the reason that we did not get an account of the proceedings until after the election.

OFFICIAL RETURNS OF THE ELECTION HELD IN BEDFORD COUNTY, OCT. 8, 1867.

Below will be found a full and accurate table of the returns of the late election for this county. It will be seen that Judge Sharswood's majority, is 339, a gain of 95 votes since last year. Nearly all the Democratic candidates for county offices run ahead of Sharswood. In justice to Capt. Swartz, it should be remembered that he declined the Radical nomination for Auditor, and was, therefore, no candidate.

SPECIAL mention must be made of the Democrats of Union, Snake Spring, C. Valley, Saxton, Liberty, M. Woodbury, Broad Top, Bloody Run, Monroe and Bedford borough, for the handsome gains they made over last year. Juniata, St. Clair and Colerain also did well, considering the removals of Democrats from those townships. Union, Snake Spring, Bloody Run and Bedford borough, increased their Democratic vote over last year.

TO CANDIDATES.—Our rule has always been to portion the cost of printing the tickets among the candidates. We make this notice, so that there will be no misapprehension upon this subject.

Democratic Rejoicings.

ALBANY, N. Y., October 11.—The Democrats of the Knickerbocker City have had a public rejoicing this evening over the result of the October elections. Salutes, torchlight processions, bands of music and a tumult generally expressed the satisfaction of the Albanians. Among the transparencies was one stating that "Ohio has been Wade and found wanting," and another promising forty thousand Democratic majority for New York. The demonstrations in honor of the supposed Democratic victory was fully as enthusiastic as the one in the afternoon in honor of General Sheridan's presence.

LOCKPORT, N. Y., October 10.—This city is illuminated, bonfires are burning and one hundred guns are being fired over the Democratic victories in Pennsylvania and Ohio.

WORCESTER, Mass., October 10.—A salute of one hundred guns was fired in this city at noon to-day in honor of the recent Democratic victories.

BANGOR, Me., October 10.—The Democracy of this city are firing one hundred guns in honor of the Democratic victories in Pennsylvania and Ohio.

PORTLAND, Me., October 10.—One hundred guns are being fired here in honor of the Democratic victories.

WATERTOWN, N. Y., October 10.—The late Democratic victories are being celebrated here by the firing of cannon. Bands of music are parading the streets and the Democrats are feeling very jubilant.

GENERAL BUTLER WILL NOT SACRIFICE HIS INDEPENDENCE TO BE PRESIDENT.—General Butler has published a letter in reply to friends who want to know if he would make a good candidate for the presidency, holding the views he does on financial and political questions. He says that his hopes or expectations of preferment have nothing to do with his political views, and that he would not sacrifice his independence of thought and action to be President ten times over. He declares he will speak his thoughts and views, no matter what the consequence may be. This is rather spoony for Butler.

Connecticut.

The latest returns from Connecticut show that in the returns from 116 towns the Radicals have gained 3 and the Democrats 23, which will elect 39 members, and thus give a handsome majority to the Democrats on joint ballot in the next Legislature. New London, Stratford, Fairfield and Saybrook are among the towns gained by the Democrats.

[LATER.]

[*From the Hartford, Ct., Times, Oct.* 10.]

We have received returns from every town in Connecticut that voted last Monday. The result is:

Democratic towns,	83
Radical towns,	73
Democratic majority,	10

This is the first time in thirteen years that the Democrats have carried a majority of the towns in this State. We have gained over twenty towns this fall.

The Ohio Election.

The result of the Ohio election is as yet so far in doubt that it is thought nothing but the official count will determine the issue. Charges are made that negroes were permitted to vote, and in case the Radicals should make out a small majority, sufficient to have been made by these votes, the election is to be contested. The Cincinnati *Enquirer* calls on the Democracy not to yield the governorship if negro votes can be proven to have been polled. In the legislature the Democrats have a majority of ten on joint ballot, a change from the Radical majority of the last body of forty-six.

Iowa Election.

In Iowa, Merrill (Rad.) is in all likelihood elected Governor, but returns so far show a Democratic gain in 31 counties of 5,838. Last year the Radical majority was 35,412. Sixty-nine counties are yet to hear from, and indications are that the Democratic gain will be very greatly increased.

Indiana Election.

Scattering returns from Indiana show a Democratic gain of 4,232 on the Radical majority last year of 14,202.

Eruption of Mount Hecla.

The Marquis of Brute has just returned to England from Iceland, and reports that his party ascended Mount Hecla on the 17th of August, but observed no indications of a coming eruption. A little smoke arose from the crater, but there was no symptom that the volcano was on the eve of breaking out. On the 27th of August the yacht was leaving Iceland, and when about two hundred miles distant from Mount Hecla, the brass mountings on board became suddenly discolored, and it was then conjectured that the volcano had burst fourth. On arriving shortly afterwards at North Faroe, it was ascertained that the mail steamer, which which had left Iceland later than the yacht, had brought intelligence of an eruption which had been so terrible in its nature that the inhabitants of Reikavik, living at a distance of about one hundred miles from Hecla, were nearly suffocated by the sulphurous fumes from the volcano.

From the Indian Country.

WASHINGTON, October 14.—The Indian bureau has received the following despatch from superintendent Murphy of Indian Affairs in the West, dated 12th inst., at 60 miles south of Fort Larned:

I have been 12 days among the Indians and find them all anxious for peace. I had considerable trouble in getting a communication with the Cheyennes, but have succeeded. They promise that no more war parties shall go out, and agree to meet the commissioners. I can say that the Arrapahoes, Cheyennes, Apaches, Kiowas, and Comanches will be fully represented here at the grand council. There are large numbers of these Indians here now, and others are coming in as fast as they can. If the Commissioners can get here sooner than full moon it would be better.

POOR STANTON.—Hon. Edwin M. Stanton was among the arrivals at the Continental Hotel last night.—*Philadelphia Press, October* 8.

There is a prevalent suspicion that the "Hon. Edwin M. Stanton" did not enjoy his visit in Philadelphia as much as he hoped to, especially when late in the evening the shouts over a Democratic victory greeted his ears. It is understood that he now entertains a deep sympathy for Cardinal Woolsey, and is about to devote the remainder of his days to the study of Shakspeare.—*N. Y. World.*

NEWS AND OTHER ITEMS.

—Over one hundred illegal stills have been captured in the northern part of Philadelphia, where the rioters successfully, in two instances, drove off the officers. The last raid on these distilleries was supported by a force of United States marines with their muskets loaded. The revenue officers were, in consequence, permitted to carry off the stills they had seized without any further demonstrations than hisses and groans.

—Mrs. Lincoln, the widow of President Lincoln, is selling her dresses and jewelry in New York and has given permission that the fact should be stated. She says she has but seventeen hundred dollars a year to live on. Having tasted of high life, she cannot return to her former simple style of living. The estimated value of all the articles offered for sale is twenty-four thousand dollars.

—By the 1st of November the Union Pacific railroad will be completed as far as Cheyenne City, Dakota Territory, at the base of the Rocky mountains. This is the point of intersection of the Denver branch railroad—from which place it is distant one hundred and twelve miles—the distribution point for Colorada mines, and the general depot for all parts on the Fort Laramie, Fort Reno and Montana roads.

—The Montgomery (Ala.,) *Sentinel* says: We regret to learn that a new and fatal disease has recently appeared in different parts of Montgomery county. Thus far it has baffled the utmost skill of the physicians. It begins with fever, and soon bloody discharges from the bladder ensue, which continue till a fatal termination within forty-eight hours. After death the corpse becomes extremely yellow. All the cases, so far, have resulted fatally.

—It is stated in a special despatch from Nashville to the Cincinnati *Commercial* that Brownlow will be elected United States Senator, in place of Senator Patterson, whose term expires on the 4th of March next.

—A few evenings since, during the prevalence of a storm, as a journeyman and an apprentice boy were at work in a carpentershop, the lightning entered in at the window, passed down a saw in the boy's hand, struck a plane which the journeyman was using, and passing down the bit set fire to the piece of lumber which the journeyman was dressing, leaving the boy and man unharmed.

—The papers chronicle the death, in Brooklyn, of Mrs. Mary Arnold, aged one hundred and ten years. She used to visit General Washington when he lived in Pearl Street square, and during the war of 1812 assisted a noble band of women in throwing up the earthworks at Fort Greene. She has five children living, of whom the oldest is seventy years of age, and her descendants reach to the fifth generation.

—Mr. Charles A. Lane, of New York, proposes that the Loyal Leagues throughout the country shall contribute toward a purse of $250,000 for Mrs. Lincoln, "not as a gift, but as a slight acknowledgment of the debt which the loyal people owe to the memory of the Great Emancipator."

—Governor Fenton, of New York, refuses to pay over the appropriation made by the Legislature of that State in aid of the Antietam Cemetery until a commission presents a satisfactory report upon its past and present management. Governor Geary, of Pennsylvania, has also appointed a special commission for a like purpose.

—The next National Republican Convention, for the nomination of a President and Vice-President, will be held at Chicago. The members of the national executive committee have been corresponding on the subject, and a majority have expressed themselves in favor of Chicago.

—There was an extraordinary display of "Northern lights" at St. Paul, Minnesota, last Wednesday night.—The electrical illumination was quite brilliant, and so powerful was the magnetic effect that the telegraphic wires were rendered inoperative.

—The decrease of thirty-two millions in the import trade, and eleven and a half millions in the export trade of New York, since the 1st of January, indicates how far the wholesale business is behind this year.

—A Texas paper says that there are now several thousand beeves in Williamstown County, in that State, full, fat, and fine and that the same may be said of almost any county.

—A little daughter of Mr Buckle, near Bristol, Virginia, aged seven years, met a horrible death on Thursday. She was assisting in grinding sugar cane, when her head was caught in the machinery and so terribly crushed as to cause her death almost instantly.

—The New York *Times* speaks of the Democratic party as "a united and powerful enemy" to the Radicals. A little while ago the *Times* was ridiculing the Democratic party as defunct.

—A train on the Northwestern Railroad in the western part of Iowa, was a few days since delayed one hour and a quarter by grasshoppers, which covered the track so thick that the engine drivers slipped on the rails.

—Gen. Joseph E. Johnson has resigned the presidency of the Alabama and Tennessee River railroad, from Selma to Dalton, and his place has been filled by the election of Franklin H. Deland, of New York.

—The temperance movement, it is announced, has, during the past twenty-five years, enrolled 1,500,000 members, and its societies now have 200,000 active members in North America.

—The thirteenth section of thirty miles of the Union Pacific railroad has been accepted. This section completes the road 455 miles west from Omaha, Nebraska.

—Nearly 14,000 acres of public lands were disposed of at the land offices at San Francisco and Stockton, Cal., during August.

—It is said that one-eighth of the iron and steel now made in the United States is from the iron ores of Lake Superior.

—The reciprocity treaty with the United States has passed the Sandwich Islands Legislature, and received the King's approval.

—The cultivation of sorghum, which was quite extensive in Wisconsin in 1865, has nearly ceased, the season proving too short for ripening it.

—A Women's Christian Association is to be established in Chicago.

—General Lee has 600 students at his college, against 400 last year.

—General Schenck is Wade's competitor for the Ohio Senatorship.

—There were several shocks of earthquakes in East Tennessee last week.

FOR ACTS OF CHARITY and Benevolence Philadelphia stands prominent among her sister cities. During the war she had our refreshment saloons where thousands were fed while on their way to the "front," and now, in order that the good work may be continued, it is proposed to provide for the orphans of many of those brave heroes who fell in defense of the stars and stripes. For this purpose the Washington Library Company of Philadelphia was organized in aid of the Riverside Institute of New Jersey. Here the Orphans of Soldiers and Sailors in all parts of the country will be gratuitously educated and made useful members of society. The just and honorable plan adopted for raising the necessary funds for this charitable object has received the endorsement of every one. Read advertisement.

WOOD! WOOD!—Twenty cords of wood wanted at this office, in payment of subscription. None but good hickory, or chestnut oak will be taken.

THE LADY'S FRIEND, FOR NOVEMBER.—This number is remarkably good. The Steel Engraving "Learning to Sew" is a sweet, quiet, home picture. The Fashion Plate is stylish and gay; nothing of the kind in the country is worth looking at compared with the elegant refinement of the fashions as shown by this magazine. The Wood Cuts lead off with some captivating skating costumes, and some illustrations of a novel and most convenient kind of hood; and include a wonderful variety of things interesting to ladies. There are two pages of Music—"The Pearly Stream Polka;" and the literary matter is uncommonly rich:—August Bell, Elizabeth Prescott, Aunt Alice and Frank Lee Benedict have done their best.

Great inducements in the way of Premiums, &c., are promised to new subscribers, *and our readers should send for a sample copy, containing all these liberal offers.* Sample copies will be sent for fifteen cents.

Price (with engraving) $2.50 a year; Four copies (with one engraving) $6.00. One copy of Lady's Friend and one of Saturday Evening Post (and one engraving), $4.00. Address Deacon & Peterson, 319 Walnut Street, Philadelphia.

—Since the year 1812 when the first load of anthracite coal was taken back to Philadelphia and given away, the production consequent upon an extended demand has increased with great regularity, and now it reaches from ten to twelve million tuns a year. It is estimated that in ten years it will have reached the enormous annual production of twenty million tuns.

SPECIAL NOTICES.

THE GLORY OF MAN IS STRENGTH.—Therefore the nervous and debilitated should immediately use Helmbold's Extract Buchu.

DR. SCHENCK'S PULMONIC SYRUP. This great medicine cured Dr. J. H. Schenck, the proprietor, of Pulmonary Consumption, when it had assumed its most formidable aspect, and when speedy death appeared to be inevitable. His physicians pronounced his case incurable, when he commenced the use of this simple but powerful remedy. His health was restored in a very short time, and no return of the disease has been apprehended, for all the symptoms quickly disappeared, and his present weight is more than two hundred pounds.

Since his recovery, he has devoted his attention exclusively to the cure of Consumption, and the diseases which are usually complicated with it, and the cures effected by his medicines have been very numerous and truly wonderful. Dr. Schenck makes professional visits to several of the larger cities weekly, where he has a large concourse of patients, and it is truly astonishing to see poor consumptives that have to be lifted out of their carriages, and in a few months healthy, robust persons. Dr. Schenck's PULMONIC SYRUP, SEAWEED TONIC, and MANDRAKE PILLS, are generally all required in curing Consumption. Full directions accompany each, so that any one can take them without seeing Dr. Schenck, but when it is convenient it is best to see him. He gives advice free, but for a thorough examination with his Respirometer his fee is three dollars.

Please observe, when purchasing, that the two likenesses of the Doctor, one when in the last stage of consumption, and the other as he now is, in perfect health, are on the Government stamp

Sold by all druggists and dealers; price $1 50 per bottle, or $7 50 the half dozen. All letters for advice should be addressed to Dr. Schenck's principal Office, No. 15 North Sixth street, Philadelphia, Pa.

WHAT EVERY ONE WANTS.—A good, reliable medicine that will be on hand when required, and never fails when called on. That is now to be obtained in Dr. Tobias' Celebrated Venetian Liniment. Many thousands call it the Wonder of the age, as it does all that is represented and more. It cures Diarrhœa, Dysentery, Colic, Spasms, Vomiting, Croup, and Sea-sickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest, and Limbs, thousands have testified to, and their certificates can be seen by any one at the Doctor's Depot, 56 Cortlandt Street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle. Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50 cents and $1 per Bottle. Sold by Druggists Depot, 56 Cortlandt Street, N.Y.

THE LABORER IS WORTHY OF HIS HIRE.—Now that the good fight has been fought, we feel justified in appealing to our friends who are in arrears to pay up. We are always at much expense during political campaigns, and invariably come out of them with depleted pockets. We owe some debts which must be paid. Will those who owe us respond to this appeal? Come and settle, at any rate. This is the last dun we shall print. Our accounts must be settled, and we shall make out bills for all unsettled accounts and place them in the hands of an officer for collection. We shall do this with great reluctance, but it must be done, if kind words are of no avail.

FLAG PRESENTATION.—On Friday. Oct. 4, a large concourse of the sterling Democracy of Southampton tp., assembled at Adams' Mills, for the purpose of receiving a flag which was to be presented to Southampton by the Democrats of Bedford borough. The meeting was organized by the appointment of David Rowland as President; Adam Fetter, Mr. Rose, Ed. Northcraft, Thos. Lawhead, David Howsare, James Collins, Denton Stevens, Thos. Conrad, David Walter, and James Elder, Vice Presidents; and Hez. Barkman, John Barnes, Sol. Wilkerson, Asa Howsare, Michael Northcraft, Thos. Trail, Samuel Jay, John Kennard, Joshua Howsare, Daniel Miller, Owen Ash and Phil. Barkman, Secretaries. A beautiful silk flag, bearing the inscription, "Southampton," in gilt letters, was then presented to the Democrats of Southampton, by O. E. Shannon, Esq., in behalf of the Democrats of Bedford borough, in an appropriate address.—J. W. Dickerson, Esq., in a neat speech, received the flag, after which it was placed in the custody of Mr. Michael Mills, the oldest Democrat in the township. (Mr. Mills has voted 62 times at the Southampton polls, and his ballot was always the Democratic ticket.) The meeting was also addressed by E. F. Kerr, Esq. After the speeches the meeting adjourned with the best of feeling.

THE TEACHERS' COUNTY INSTITUTE will meet in Bedford, Monday, Oct. 21, and continue five days. Several lecturers from abroad are expected. Hon. J. P. Wickersham, State Supt. C. S., will deliver a free lecture in the Court House, on Wednesday evening, Oct. 23. The singing class of the Co. Normal School, will give a Concert on Tuesday night. The music will consist of solos, duets, quartets, choruses, &c. Closing exercises, of the Normal School, on Friday night, in the Court House. The exercises will consist of Orations, Recitations, Select Reading, Essays, Music, &c. Tickets to concert, or closing exercises, 25 cts.

MUSIC.—Prof. John Ptaszyk, of Harrisburg, will visit Bedford, this week, for the purpose of tuning pianos. He will remain but a few days. Persons desiring to have their pianos put in tune, are requested to leave their orders at the "Bedford House," or at the Hardware Store of Hartley & Metzger.

EPISCOPAL SERVICES.—During the fall and winter there will be services and preaching every Sabbath morning and evening, except the last Sabbath in the month. Morning Service at 11 o'clock—Evening, half past six. Seats free and all are welcome. Sunday School at half past 9 A. M.

THE poor fellows who have just returned, all torn and tattered, from the cold bleak bluffs of Salt River, would do well to call at Farquhar's and get a good suit of clothes. Price: satinet suits, $10,00; Cassimere suits, from $10 to $20; Very best, $25.

CLASSICAL SCHOOL.—The Bedford Classical School, formerly the Rev. John Lyon's, is expected to re-open on Monday, the 4th of November, at the close of the Normal School. Further particulars in our next.

GOOD NEWS.—Berkstresser & co. sell none but the best quality of ready-made clothing, piece goods, hats, gents' furnishing goods, &c., at prices to suit all. Give them a call.

DEDICATION.—The Methodist Episcopal Church, built near the residence of Mr. Samuel Elliott, in Cumberland Valley township, will be dedicated on the 27th day of October, 1867.

TRIBUTE OF RESPECT.—The following resolutions were passed at a regular meeting of Bedford Lodge, No. 148 I. O. of G. T., held Monday Evening. Oct. 7, 1867.

Whereas, God, in his inscrutable wisdom, has removed by death one of our number, brother JOSEPH GIBSON,

Resolved, That we bow submissively to the dark and mysterious Providence which has taken one so early in life from our midst; that we sincerely regret our loss, and deeply sympathize with the bereaved relatives, and pray that the God of all consolation may stand by them in this the hour of their severe trial.

Resolved, That as a token of respect for our deceased brother, the members of this lodge wear a badge of mourning on the right arm for *twenty days*.

Resolved, That a copy of these resolutions be transmitted to the family of our deceased brother, that they be entered on the journal of the lodge, and published in the BEDFORD GAZETTE, *Bedford Inquirer* and *Monthly Circular*.

MARRIED.

AKE—ICKES—On the 13th inst., by the Rev. C. U Heilman, Mr. W. Scott Ake and Miss Ann Maria Ickes, both of Union tp., Bedford Co., Pa.

CORLE—DEAL—On the 8th inst., at the Lutheran parsonage, in Bloody Run, by the Rev. G. C. Probst, Mr. John A Corle and Miss Kate A. Deal, both of Friends' Cove.

DIED.

BEEGLE—In Friends' cove, on the 28th ult., Martin, and on the 7th inst., Emma Blanch, the only children of Daniel and Rebecca Beegle.

The former was aged 2 years, 3 months and 29 days, and the latter 5 months and 25 days. Thus, in a few days, have these respected parents been bereft of all their dear children. Litt'e Martin and Emma were sweet infants, almost idolized by their father and mother. But how soon the icy touch of death and the damp, cold grave withered the greatest joys and blasted the fondest anticipations. But listen, ye sorrowing ones!

"Tis Jesus speaks! I fold, says he,
These lambs within my breast;
Protection they's all find in me,
In me be ever blessed.

Death may the bands of life unloose,
But can't dissolve my love;
Millions of infant souls compose
The family above."

The effect of your "Tremolo" is entirely new to me, and is certainly the *best* I ever heard.—Geo. W. Morgan. [The first Organist of America.
No Tremolo has yet been invented that will in any degree compare with this for beauty of effect. In fact, it seems to me to be absolutely perfect.—Wm. A. Johnson. Pipe Organ Builder.
Estey's Cottage Organs are without a superior for exceedingly quick articulation and round tone—the essential features in instruments of this class—Geo. Jardine, Pipe Organ Builder.
The Cotttge Organ is the best of its class I ever saw, and the best adapted for church music of any in use.—C. Heintz, Organist, Findlay, O.
I am much pleased with the Cottage Organ which I purchased from you; it combines sweetness and power in an unusual degree, and is quite a favorite in our family circle.—Bishop Simpson.
We know no organs of the class which possess so many valuable qualities.—Independent.
For the parlor, its sweetness is remarkable; for the church it has a power more organ-like than anything we have seen.—Methodist.
Persons wishing to purchase an organ are requested to examine the Estey instruments now in use at the Presbyterian and Episcopal Churches, Bedford, Pa. jul26,'67

DENTISTRY! DENTISTRY!
A BEAUTIFUL SET OF TEETH FOR TEN DOLLARS
Dr. H. VIRGIL PORTER,
(late of New York city,)
DENTIST,
Would respectfully inform his numerous friends and the public generally, that he has located permanently
IN BLOODY RUN,
where he may be found at all times prepared to insert from ONE TOOTH to full sets of his
BEAUTIFUL ARTIFICIAL TEETH,
on new and improved atmospheric principles.
THE TRIUMPH OF MECHANICAL DENTISTRY,
RUBBER
FOR THE BASIS OF ARTIFICIAL TEETH.
This discovery which has met with such universal approval throughout this and other countries, has seemingly placed *Artificial Teeth* at the disposal of all who require them. Dr. PORTER is now inserting most *beautiful* and *durable*, at prices ranging from ten to eighteen dollars per set.
☞ Temporary sets inserted if desired.
☞ All operations warranted.
TEETH EXTRACTED, without pain, by the use of NITROUS OXIDE or LAUGHING GAS.
This is NO HUMBUG, but a positive fact.
Gas administered fresh every day.
As the Gas administered by Dr. Porter is prepared in accordance with the purifying method of Dr. Strong, of New Haven, Ct., and Prof. Siliman (late Professor of Chemistry in Yale College), he has no hesitation in asserting that it is attended with no danger whatever.
Persons desiring the services of a Dentist, would promote their own interest by calling upon Dr. Porter, as he is determined to spare no effort to please the most fastidious. Dr. Porter's mode of operating will at all times be of the mildest character, avoiding the infliction of the slightest unnecessary pain, and carefully adapted to the age, constitution, health and nervous condition of the patient.
☞ Special attention is invited to Dr. Porter's scientific method of preserving decayed and aching teeth. H. VIRGIL PORTER,

1867.—"THE WORLD."—1867.
The attention of the public is invited to the claims of "The World" as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advocate of the immediate restoration of the Union. Its highest merits consists in its character as an enterprising and trustworthy newspaper.
The next year bids fair to be a more critical one in the history of our free institutions than even any eventful ones that have preceded it. The first requsite for an intelligent judgment of public affairs is a full and authentic account of facts as they transpire. These THE WORLD always aims to give with consciencious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interest, is the first duty of a newspaper, and the facilities of THE WORLD for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, nor to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy and candor, that no class of readers can miss anything of interest which they wish to find. THE WORLD will publish documents and arguments prepared by political foes just as freely as those prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments, which it cannot refute, it is content to leave to make their full impression. THE WORLD adopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance. In politics, THE WORLD will continue to be the bold advocate of a Liberal, Progressive Democracy. The unflinching champion of Freedom, Justice, Order and Constitutional Rights. The inspiration of its politics is Freedom restrained by Justice; or, to speak more strictly, Freedom pure and simple, in the largest collective measure; the office of justice being merely to protect freedom from encroachments; Freedom of the individual citizen in his rights of thought, speech, religion and locomotion; in his Right to choose his own food and drink, in spite of meddlesome temperance laws; in his Right to make any money bargains he thinks proper, in spite of foolish usury laws; in his Right to buy and sell in all markets, domestic and foreign, in spite of unjust protective tariffs; in his Right to representation in the legislative bodies which tax him, in spite of unconstitutional exclusions; Freedom of collective citizens to assemble for discussion of grievances; Freedom of all local communities to manage their local affairs without central interference; Freedom in every section of the country from the arrogant and unconstitutional domination of other sections; this large and comprehensive idea of Freedom sums up the politics of THE WORLD, which will never be found wanting to this capital interest of the country and of the human race.
In its accurate Commercial Intelligence and careful, reliable market reports, THE WORLD will continue to maintain its present high reputation. A paper published in the commercial metropolis is naturally looked to for authentic information relating to trade, commerce and finance; and this being a feature in which the THE WORLD prides itself, it boldly challenges comparison with every journal in the metropolis.
EDITIONS.
The WEEKLY WORLD, a large quarto sheet, same size as Daily, is now printed throughout in large type, and has the largest circulation of any weekly journal published, save one. Its extraordinary success since its union with the New York AMERICA has justified the most liberal expenditures, which will make it unrivalled in interest and value to farmers. Published Wednesday.
1. Its Market Reports embrace the New York, Albany, Brighton and Cambridge Live Stock Markets; the New York Country Produce and General Produce Markets; special and valuable Hop Intelligence; a department of Agricultural Reading; all together composing an unrivalled handbook of current information for the Farmer, Live Stock or Produce Dealer, Country Merchant, &c.
2. A page or more reserved for entertaining Fireside Reading for the Family circle, embracing the freshest and best Stories, Poetry, Religious Reading, etc., and a page for the Discussion of all Prominent Topics of general interest, political agricultural, financial, literary, etc.
3. Its Digest of the News is not, like most weeklies, a mere waste-basket of the Daily; only matters of interest and importance are chosen from the Daily, while the mass of its contents are prepared especially for the Weekly.
In every postoffice district there should be found some active, public spirited Democrat, who will confer a benefit upon us, his neighbors, and the cause, by counseling with his Democratic friends and making a determined effort to form as large a club as possible for the WEEKLY WORLD.
The SEMI-WEEKLY WORLD is a large quarto sheet, same size as Daily, which, by omitting a great mass of city advertisements from the Daily, contains all its news, correspondence, editorials, commercial and market news cattle market and provision reports, and a fresh and entertaining miscellany of literature. Published Tuesday and Friday.
The DAILY WORLD affords a complete compendium of, and commentary upon, the news of every day.

VALUABLE BROAD TOP COAL LANDS FOR SALE.
Estate of John N. Lane, late of the city of Lancaster, deceased.
Pursuant to an alias order of the Orphan's court of Bedford county, Penn'a, the Administrators of the estate of said deceased, will sell peremptorily, on THURSDAY, the 31st day of OCTOBER, 1867, at 12 o'clock, M., at the Court House, in the town of Bedford, Pennsylvania, Seven Tracts of Coal Land containing upwards of
FIFTEEN HUNDRED ACRES,
situated in Broad Top township, Bedford county.
Six of the Tracts are situated contiguous on Sandy Run, which empties into the Raystown branch of the Juniata, near above Hopewell, on the Huntingdon and Broad Top Railroad, a branch of which road has been graded up said run to or near said land. These six tracts are all good coal lands and form one of the best coal estates in the Broad Top coal field, and can be mined on Sandy Run and Six Mile Run. They can be mined together, or each of the tracts can be mined separately, advantageously.
The remaining tract is situated several miles from the above tracts, near the head of Sandy Run; is a good coal tract and set with excellent timber.
Persons desiring to purchase are referred to Mr. Roberts or Mr. Fulton, Engineers and Geologists, who have examined the lands.
A map of the lands can be seen or had by applying to the undersigned.
Any further information desired before the sale can be had by addressing the Administrators, at Lancaster, Pa., or the Hon. Samuel L. Russell, at Bedford, Pa.
TERMS.—One-third of the purchase money on the day of the confirmation of the sale by the Court, one-third in one year, and one-third in two years thereafter with interest.
